Thorough manual for pdf lovers. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

HARVARD EAST ASIAN MONOGRAPHS 375. THE KOREAN ECONOMY: FROM A MIRACULOUS PAST TO A SUSTAINABLE FUTURE.

Harvard University Press, Cambridge, Massachusetts and London England, 2015. Hardcover. Book Condition: New. 378 pages. Hardcover with dustjacket. New book. SOUTH KOREA. South Korea has been held out as an economic miracle— a country that successfully completed the transition from underdeveloped to developed country status— and as an example of how a middle-income country can continue to move up the technology ladder into the production and export of more sophisticated goods and services. But with these successes have come challenges, among them poverty, inequality, long work hours, financial instability, and complaints about the economic and political power of the country's large corporate conglomerates, or chaebol. The Korean Economy provides an overview of Korean economic experience since the 1950s, with a focus on the period since democratization in 1987. Successive chapters analyze the Korean experience from the perspectives of political economy, the growth record, industrial organization and corporate governance, financial development and instability, labor and employment, inequality and social policy, and Korea's place in the world economy. A concluding chapter describes the country's economic challenges going forward and how they can best be met. The volume also serves to summarize the findings of companion volumes in the Harvard-Korean Development Institute series on the Korean economy, also published by the Harvard University Asia Center. Barry Eichengreen is George C. Pardee and Helen N. Pardee Professor of Economics and Political Science at the University of California, Berkeley. Wonhyuk Lim is Director of Global Economy Research at the Korean Development Institute. Yung Chul Park is Distinguished Professor of Political Economy at Korea University. Dwight H. Perkins is Harold Hitchings Burbank Professor of Political Economy, Emeritus, at Harvard University. (Key Words: Barry Eichengreen, Wonhyuk Lim, Yung Chul Park, Dwight H. Perkins, Business, Economics, South Korea). book.
