

## optoelectronic devices and fiber optic communications with the components

Filesize: 8.11 MB

### **Reviews**

*This published publication is wonderful. Of course, it is actually engage in, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.*

*(Vickie Wolff)*

## OPTOELECTRONIC DEVICES AND FIBER OPTIC COMMUNICATIONS WITH THE COMPONENTS

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 331 Publisher: Beijing University of Posts and Telecommunications Press Pub. Date :2003-05. Book is a dedicated fiber-optic communications with professional and technical books optoelectronic devices. a total of 13 chapters. The book describes more fully fiber-optic communications light emitting devices (LED and LD and their components. including modules). ravioli Post palm skeleton (PIN and APD and its components. including modules). optical modulators. optical switches and optical amplifiers The basic principle of the device structure. device assembly. device parameters. and focus on DWDM and optical subscriber access network applications of optoelectronic devices; also described in greater detail to ensure the reliability of optical fiber communication devices with optoelectronic devices and the use of optoelectronic devices assessment criteria Notes on. This book shows the author not only the accumulation of years of work. at home and abroad in recent years also made reference to the latest technical information available in optical fiber communications (including research and production of optoelectronic devices. fiber optic Contents: 1 fiber optic communications and optical fiber communication systems optoelectronic devices 1.1 About 1.2 optical modulator optical transmitter 1.3 1.4 fiber (cable) 1.5 1.6 optical amplifier optical receiver 1.7 2 light-emitting diodes and optical passive components 2.1 light-emitting diode light-emitting diode structure and the basic working principle of 2.2 light-emitting diode characteristics and test methods 2.3 2.4 high-speed ultra-radiation-emitting diode light-emitting diodes 2.5 led component 3 and the semiconductor laser diode semiconductor laser diode laser components 3.1 Classification 3.2 applications and Fabry - Perot laser diode distributed feedback laser diode and 3.3 Four Satisfaction guaranteed, or money back.
