FARM FRIENDS AND FARM FOES: A TEXT-BOOK OF AGRICULTURAL SCIENCE (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Farm Friends and Farm Foes: A Text-Book of Agricultural Science This book is intended to serve as a text and guide for the study of those plants and animals so vitally related to crop production as often to determine success or failure therein. The information given embodies the latest researches of that host of investigators who have done such great service in the advancement of agriculture in recent years. The text has been so combined with directions for observation and expression that it is hoped that teachers will be able to lead their pupils to a first-hand knowledge of the most important plants, insects, birds, and mammals to be found in the region of the school. Most of the original engravings are from drawings by Mr. W. I. Beecroft, a few being adapted from the publications of authors to whom credit is given in the list of illustrations. Many of the insect pictures are from woodcuts originally made for the classic report on Insects Injurious to Vegetation, by Dr. T. W. Harris, for the use of which thanks are returned to Mr. J. Lewis Ellsworth, Secretary of the Massachusetts State Board of Agriculture. For courtesies in connection with other illustrations I am indebted to Misses Hazel Dearth, Alice Manning, and I. S. Cragin, and Messrs. James Hall, A. I. Randall, E. D. Sanderson, A. D. Selby, A. H. Verrill, and C. W. Woodworth, as well as to the Experiment Stations of Illinois and New Hampshire and the United States Department of Agriculture. I have also to thank Mr. W. F. Fiske, of the Gypsy Moth Laboratory, for kindly reading the proof of the chapters on...
